SUBJECT INDEX TO VOLUME 148

ABDOMEN
abscess, prevention, intraperitoneal irrigation with providone-iodine, 409
sepsis, hypouricemia, poor prognosis, 358
surgery, incisions, median, upper, and muscle transection, comparative effects, on postoperative pulmonary function, 863
trauma, laparotomy, negative finding at morbidity, 23
umbilical area, for urinary stoma placement, 543
Abnormalities and deformities
cryptorchidism, orchidopexy, clinical, histologic and sperm examinations, 855
experimental, and clinical, postnatal cranifacial skeletal changes, 659
vascular ectasias, colon, 670
Acid
ingestion, surgical implications, 895
Adrenal glands
excision, combined chemotherapy for carcinoma of breast with metastases, 881
Aneurysms
intracranial, blood viscosity after craniotomy, effects of low molecular weight dextran, 9
Anus
abscess, fistula, anorectal supralevator, 899
cancer; carcinoma, squamous cell, local treatment, 576
Aorta
abdominal, aneurysms, resection, acute renal failure, 175
Asepsis
wood fiber contamination, of reusable cotton laparotomy pads, 887

BLOOD
calcium, children, parathyroid infarction after thyroidectomy, 76
cholesterol, experimental, pool sizes, and turnover, following portacaval shunt, 723
flow, experimental, intrarenal, changes, during sepsis, 731
hemodynamics, experimental, cerebral, and metabolic disorders during endotoxin shock, 361
hemoglobin, solution, crystalline, experimental, lyophilization, exchange transfusions, 69
hypouricemia, intra-abdominal sepsis, poor prognosis, 358
perfusion, extracorporeal, experimental, without anticoagulation, response to endotoxin, 679
physiology, induced by vascular reconstruction, hemometakinesia, undesirable effects, 534
plasma, catecholamine levels, pulmonary dysfunction in sepsis, 715
sepsis, experimental, intrarenal, 731
intra-abdominal, hypouricemia, poor prognosis, 358
pulmonary dysfunction, plasma catecholamine levels, 715
viscosity, effects of low molecular weight dextran, after craniotomy for intracranial aneurysms, 9
Blood vessels
anastomosis, grafts, use of venous cuff, 930
arteries, aortofemoral, grafts, occluded, intraoperative endoscopic evaluation, following thrombectomy, 87
carotid, endarterectomy, in community hospital, 720
phonoangiography, and oculoplethysmography, 201
foot, occlusion, management, 396
mesenteric, ischemia, chronic, masquerading as cancer, 49
renal, disease, segmental embolic, experimental, evaluation of new treatment, 739
right, experimental, and clinical, revascularization of, hepatorenal bypass, 557
wounds, experimental, collagen content, effect of regenerated endothelium, 839
grafts, anastomosis, use of venous cuff, 930
aortofemoral, occluded, intraoperative endoscopic evaluation, following thrombectomy, 87
surgery, aortofemoral grafts, occluded, technique of endoscopic evaluation, following thrombectomy, 87
endarterectomy, carotid, in community hospital, 720
experimental, and clinical, hepatorenal bypass, revascularization of right renal artery, 557
extra-anatomic bypass grafts, hemodynamics, 567
portacaval shunt, cholesterol pool sizes and turnover, 723
extra-anatomic bypass with expanded polytetrafluorethylene, 525
lower part of leg, improved visualization and identification, 927
mesocaval shunt, interposition, for primary Budd-Chiari syndrome, 691
peritoneojugular shunts, roentgenographic examination, 93
reconstruction, undesirable effects of hemometakinesia, 534
veins, access to, modified right atrial catheter, in marrow transplant recipients, 871
cuff, for anastomosis, grafts, use of, 930
esophageal, variceal bleeding, sclerotherapy, prospective controlled trial, 323
internal jugular, percutaneous cannulation, in infants and children, 591
partial, hypertension, interposition grafting with expanded polytetrafluoroethylene, 387
subclavian, infraclavicular catheterization, 925
vena cava, filters, insertion, 422
Bones
acetabulum, lesions, transinguinal approach, 249
facial, experimental, changes, postnatal, 659
marrow, transplantation, recipients, modified right atrial catheter for access to venous system, 871
surgery, transinguinal approach to supra-acetabular lesions, 249
Brain
cerebrum, hemodynamic, and metabolic disorders during endotoxin shock prevention, methylprednisolone, 361
Breast
cancer; carcinoma, chest wall recurrent, intratumor bacillus Calmette-Guerin, 867
estrogen receptors, morphologic and clinical aspects, 240
females, treated by surgical procedure only, deaths, 193
metastases, adrenalectomy-oophorectomy and combined chemotherapy, 881
surgery, reconstructive and selective, 27
tumors, nonpalpable, needle localization, 703

CANCER
anus, squamous cell, local treatment, 576
breast, carcinoma, chest wall recurrence, intratumor bacillus Calmette-Guerin, 867
carcinoma, estrogen receptors, morphologic and clinical aspects, 240
females, treated by surgical procedure, deaths only, 193
metastases, adrenalectomy-oophorectomy and combined chemotherapy, 881
surgery, reconstructive and selective, 27
cervix uteri, carcioma, metastasis, 728
colon, carcinoma, locally advanced, treatment by surgical procedure and radiotherapy postoperatively, 917
colon and rectum, carcinoma, splenomegaly, 412

endometrium, carcinoma, Stage II, importance of histologic grade, 406
lung, carcinoma, small peripheral, indications for, transcervical mediastinoscopy in, 860
pancreas, carcinoma, arteriography, oblique projection, 847
carcinoma, endoscopic retrograde cholangiopancreatography, 179
rectum, carcinoma, locally advanced, treatment by surgical procedure and radiotherapy postoperatively, 917
carcinoma, obstructive, polliation, 427
treatment, adrenalectomy-oophorectomy and combined chemotherapy, 881
Chemotherapy
preoperative, soft itssue sarcoma, 512
Collective reviews
Complications in colonoscopy, 270
Effects of nutrition and treatment of cancer on host immunocompetence, 104
Familial polyposis and Gardner's syndrome, 97
Fat necrosis, 785
Hypophosphatemia in surgical patients, 448
In vivo use of human umbilical vessels and ductus venosus arantii, 595

Principles and practice of antibiotic therapy for post-traumatic abdominal injuries, 937
Recent advances in the treatment of systemic mycotic infections, 435
Cystic duct
physiology, experimental, valvular action, 391
remnant, problem, 531
Cysts
pseudopancreatic, experimental, treatment, external drainage, 707
treated surgically, 735

DRUGS
atropine, evaluation, in acute pancreatitis, 206
dextran, low molecular, effects, on blood viscosity after craniotomy, 9
extrogen, receptors, morphologic and clinical aspects in carcinoma of breast, 240
heparin, minidose, experimental, effects on peritonitis, 571
regional versus systemic, 913
methylprednisolone, experimental, prevention of cerebral hemodynamic and metabolic disorders, 361
oral contraceptives, tumors of liver, surgical treatment, 759
povidone-iodine, solution, intraperitoneal irrigation, prevention of intra-abdominal abscesses, 409
solution, irrigation of subcutaneous tissue, for prevention of surgical wound infections, 227

EDITORIAL
Aequanimitas revisited, 419
Postoperative ileus is avoidable complication, 81
Recycling blood, 243
Endometrium
cancer; carcinoma, Stage II, importance of histologic grade, 406
Enzymes
proteolytic, topical, experimental, treatment, side-effects, 562
Esophagus
lower, extrinsic denervation, effect, on resting and cholinergic stimulated gastroesophageal sphincter, 375
muscles, gastroesophageal sphincter, cholinergic stimulated, and resting, effect of extrinsic denervation, 375
varix, bleeding, sclerotherapy, prospective controlled trial, 323
Extremities
lower, hematomas, drifting, 209
salvage and selectivity, 349
vessels, vizualization and identification, 927
upper, microemboli, treatment, 584

FACE
mid-, surgery, advancement, technique for preservation of nasal projection, 767
surgery, scars, simple excision and layered repair, 699
Foot
ischemia, severe, management, secondary to occlusive vascular disease, 396

GALLBLADDER
calculus, endoscopic management, 747
disease, cholelithiasis, following subtotal gastric resection with truncal vagotomy, 36
Gastrotintestinal tract
ulcer, Curling's, prophylactic antacid therapy and nutritional supplementation, 367
Glucose
tolerance, in obese surgical patients, 380

HEART
atrium, right, modified catheter, for access to venous system, 871
function, experimental, in thermally injured sheep, 753
Hernia
hiatal, and gastroesophageal reflux, surgical procedure, 246
incisional, longitudinal median or paramedian, surgical correction, 579

INSTRUMENTS AND APPARATUS
dilators, sphincter of Oddi, immediate and long term effects, 79
endoscope, intraoperative, for evaluation of occluded aortofemoral grafts following thrombectomy, 87
management, of choledocholithiasis and papillary stenosis, 747
filters, vena cava, insertion, 422
photoplethysmography, assessment of healing potentials of ulcers of skin, 232
sigmoidoscope, flexible, screening procedure for neoplasia of colon, 19
suture gun, Russian model 249, anastomosis of rectum, 517
T tube, nonoperative, replacement, clinical applications, 213
ultrasonograph, diagnosis of ovarian tumors, 346
vest, for ambulatory hyperalimentation, 587
Intestines
colon, tumors, flexible sigmoidoscopy as screening procedure, 19
vascular ectasias, 670
colon and rectum, cancer; carcinoma, locally advanced, treatment, by surgical procedure and radiotherapy postoperatively, 917
cancer; carcinoma, splenomegaly, 412
diverticula, disease, multiple transverse taeniamyotomy, 221
duodenum, papilla of Vater, stenosis, endoscopic management, 747
surgery, pancreaticoduodenectomy, exocrine function of pancreas, 16
infarction, experimental, urine phosphate measurements, 334
jejunoileal, bypass, defunctioned bowel syndrome, 844
bypass, obstructive, pseudo-obstructive and enteropathic syndromes, 168
large, Crohn's disease, primary and recurrent, outcome of excisional operations, 1
rectum, ano-, abscess-fistula, supralevator, 899
anastomosis, Russian model 249 suture gun, 517
cancer; carcinoma, obstructive, polliation, 427
fistula, stricture repair, postradiation repair, 499
small, experimental, reflexive beta adrenergic motor stimulation, 905
surgery, bypass, jejunoileal, defunctioned bowel syndrome, 844
bypass, safe emergency, 771
choice of segment, for urinary conduit, 45
Isotopes
water, experimental, early arterial disappearance curve, prediction of total body water, 371

KIDNEYS
arteries, segmental embolic disease, experimental, treatment, 739
blood supply, experimental, changes, during sepsis, 731
function, experimental, in thermally injured sheep, 753

failure, acute, following resection of abdominal aortic aneurysm, 175
injuries, classification, guide to therapy, 161

LIVER
abscess, amebic, symptoms, simulating acute surgical abdomen, 552
trauma, blunt, hemorrhage, nonoperative management, 507
tumors, associated with use of oral contraceptives, treatment, 759
Lungs
dysfunction, in sepsis, plasma catecholamine levels, 715
function, experimental, in thermally injured sheep, 753
postoperative, comparative effects of muscle transection and median upper abdominal incisions, 863
Lymphatic system
lymph nodes, dissection, in melanoma, 403

MEDIASTINUM
exploration, transcervical, indications for, in patients with small peripheral bronchial carcinoma, 860
Muscles
gastroesophageal sphincter, resting and cholinergic stimulated, effect of extrinsic denervation of lower esophagus on, 375
sphincter of Oddi, dilation, instrumental, 79

NECK
surgery, composite resections, incision, extended single transverse, 90
Nose
surgery, projection, technique for preservation, 767
Nutrition
hyperalimentation, peripheral, high volume, total body water changes, 196
vest, for ambulatory patients, 587
supplement, in Curling's ulcer, prophylatic antacid therapy, 367

OBESITY
surgery, glucose tolerance, 380
Ovary
excision, and combined chemotherapy for carcinoma of breast with metastases, 881
tumors, diagnosis, ultrasonography, 346

PANCREAS
cancer; carcinoma, arteriography, oblique projection, 847
endoscopic retrograde cholangiopancreatography, 179
cysts, pseudo-, treated surgically, 735
pseudo-, treatment, external drainage, 707
inflammation, acute, atropine in, evaluation, 206
acute, necrotizing, treatment, surgical ablation, 385
insulin, secretion, experimental, perfusion ex vivo with fluorocarbon emulsion, 539
physiology, experimental, hepatic, pancreatic and gastric, study of, in isolated preparation perfused ex vivo with fluorocarbon solution, 685
roentgenography, endoscopic retrograde, in pancreatic ascites, 185
secretion, experimental, lipase and colipase, in fat necrosis, 39
surgery, ablation, acute necrotizing pancreatitis, 385
pancreaticoduodenectomy, exocrine function, 16
transplantation, experimental, preservation, 57
Parathyroid glands
exploration, lateral approach, 431
infarction, hypocalcemia, children, after thyroidectomy, 76
supernumerary, function, 711
surgery, localization, intraoperative methylene blue, 769
Pediatrics
hypocalcemia, parathyroid infarction after thyroidectomy, 76
Pelvis
masses, deviation of prostatic urethra, 429
Perineum
sinus, persistent, gracilis muscle flap for closure, 33
Peritoneum
inflammation, experimental, effects of minidose heparin, 571
experimental, fibrinolytic activity, 415
irrigation, providone-iodine solution, prevention of intra-abdominal abscesses, 409
lavage, diagnostic, open, in blunt trauma, 890
Prostate
urethra, deviation, in pelvic masses, 429

RADIATION
therapy, postoperative, and surgical procedure, for treatment of locally advanced carcinoma of colon and rectum, 917
Roentgen rays
diagnosis, arteriography, oblique projection, carcinoma of pancreas, 847
cholangiopancreatography, endoscopic retrograde, in carcinoma of pancreas, 179
pancreatography, endoscopic retrograde, value, in pancreatic ascites, 185
peritoneojugular shunts, 93

SHOCK
endotoxin, experimental, cerebral hemodynamic and metabolic disorders, prevention, methylprednisolone, 361
treatment, monitoring, patient, 339
Skin
experimental, wound healing, influence of cortisol, 876
ulcer, healing, photoplethysmography, assessment, 232
Spleen
enlargement, carcinoma of colon and rectum, 412
Stomach
mucosa, injuries, experimental, stress induced, prevention, role of cimetidine, 399
nerves, stimulation, experimental, reflexive beta adrenergic motor, 905
surgery, experimental, gastroesophageal reflux, gastroplasty, 65
Nissen fundoplication, gastric ulceration, 62
subtotal resection, truncal vagotomy, cholelithiasis following, 36
ulcer, following Nissen fundoplication operation, 62
Stress
severity, estimation, simple technique, 675
Surgeon's library
Kraske operation for carcinoma of rectum, 931
Mikulicz's obituary of Theodor Billroth, 252
Surgery
aseptic, wood fiber contamination of reusable laparotomy pads, 887
experimental, cholesteral pool sizes and turnover following portacaval shunt, 723
and clinical, hepatorenal bypass as means of revascularization of right renal artery, 557
postnatal craniofacial skeletal changes, 659
early cardiopulmonary and renal function in thermally injured sheep, 753
effect, of minidose heparin on peritonitis, 571
of regenerated endothelium on collagen content in injured artery, 839
evidence of reflexive beta adrenergic motor stimulation in canine stomach and small intestine, 905
extracorporeal perfusion without anticoagulation, response to endotoxin, 679
fat necrosis, lipase and colipase in canine pancreatic juice, 39
fibrinolytic activity of peritoneum during peritonitis, 415
gastroesophageal reflux, gastroplasty, 65
hemodynamics of extra-anatomic bypass grafts, 567
hepatic, gastric and pancreatic function in isolated preparation perfused ex vivo with fluorocarbon emulsion, 685
influence of cortisol on wound healing of skin and distant connective tissue response, 876
location of force of wound contraction, 547
lyophilization of crystalline hemoglobin solution, exchange transfusions with lyophilized reconstituted hemoglobin, 69

methylprednisolone in prevention of cerebral hemodynamic and metabolic disorders, 361
pancreas, preservation, transplantation, 57
prediction of total body water from early arterial disappearance curve of isotopic water, 371
regional versus systemic heparinization, 913
secretion of insulin by canine pancreas perfused ex vivo with flurocarbon emulsion, 539
segmental embolic renal artery disease, treatment, 739
side-effects of topical proteolytic enzyme treatment, 562
urine phosphate measurements in early diagnosis of intestinal infarction, 334
valvular action of canine cystic duct, 391
morbidity and mortality, negative finding at laparotomy in abdominal trauma, 23
postoperative care, radiotherapy, treatment of locally advanced carcinoma of colon and rectum, 917
postoperative complications, acute renal failure, following resection of abdominal aortic aneurysm, 175
postoperative results, excisional, for primary and recurrent Crohn's disease of large intestine, 1
facial scars, simple scar excision and layered repair, 699
gastric ulceration following Nissen fundoplication operation, 62
postoperative study, carcinoma of breast, deaths, 193
exocrine function of pancreas after pancreaticoduodenectomy, 16
of pseudocysts of pancreas, 735
reconstructive, facial scars, simple excision and layered repair, 699
role, in acid ingestion, 895
technique, aspirating thyroid cysts, 95
correction of longitudinal median or paramedian incisional hernia, 579
exploration of parathyroid gland, lateral approach, 431
extended single transverse neck incision, 90
gracilis muscle flap for closure of persistent perineal sinus, 33
improved vizualization and identification of vessels of lower part of leg, 927
infraclavicular subclavian venous catheterization, 925
insertion of vena cava filter, 422
intraoperative endoscopic evaluation of occluded aortofemoral grafts following thrombectomy, 87
localization of parathyroid glands, by intraoperative methylene blue, 769
multiple transverse taeniamyotomy for diverticular disease, 221
needle localization of nonpalpable lesions of breast, 703
percutaneous cannulation of internal jugular vein in infants and children, 591
peritoneojugular shunts, roentgenographic examination, 93
polliation for obstructive carcinoma of rectum, 427
preservation of nasal projection in midface advancement, 767
repair of postradiation rectovaginal fistula, 499
safe emergency intestinal bypass, 771
subtotal gastric resection, truncal vagotomy, cholelithiasis following, 36
transinguinal approach to supraacetabular lesions, 249
treatment of gastroesophageal reflux and hiatal hernia, 246
of microemboli of upper extremity, 584
use of venous cuff for graft anastomosis, 930
Surgical pros and cons, 83–86; 244–245; 420–421; 764–766; 921–924
Syndromes
Budd-Chiari, chronic primary, interposition mesocaval shunt, 691
obstructive, pseudo-obstructive and enteropathic, after jejunoileal bypass, 168

TESTES
undescended, cryptorchidism, clinical, histologic and sperm examinations, 855
Thyroid
cysts, aspirating, 95
Tissues
connective, experimental, influence of cortisol, 876
subcutaneous, irrigation, with povidone-iodine solution, for prevention of surgical wound infections, 227
Transplants
grafts, arterial, aortofemoral, occluded, intraoperative endoscopic evaluation, following thrombectomy, 87
bypass, experimental, extra-anatomic, hemodynamics, 567
extra-anatomic, expanded polytetrafluoroethylene, 525
interposition, polytetrafluoroethylene, partial hypertension, 387
venous, cuff, use of, for anastomosis, 930
marrow, recipients, modified right atrial catheter for access to venous system, 871
pancreas, experimental, preservation, 57
polytetrafluoroethylene, expanded, extra-anatomic bypass, 525
Trauma
abdominal, blunt, open diagnostic peritoneal lavage, 890
laparotomy, negative finding, morbidity, 23
blunt, intrahepatic hemorrhage and hematoma, nonoperative management, 507
gastric mucosa, experimental, stress induced, prevention, role of cimetidine, 399
kidney, classification, guide to therapy, 161
Tumors
malignant, breast, chest wall recurrence, intratumor bacillus Calmette-Guerin, 867
colon, flexible sigmoidoscopy as screening procedure, 19
ovary, diagnosis, ultrasonography, 346
melanoma, immediate lymph node dissection, 403
metastatic, secondary ureteral obstruction, 355
sarcoma, soft tissue, preoperative chemotherapy, 512
treatment, of liver, associated with use of oral contraceptives, 759

URETERS
obstruction, secondary to metastatic tumors, 355
Urethra
prostatic, deviation, in pelvic masses, 429
Uterus
cervix, cancer; carcinoma, metastasis, 728
pregnancy, prevention, oral contraceptive, tumors of liver associated with use, reasonable surgical treatment for, 759

VAGINA
fistulas, postradiation, stricture, repair, 499

WATER
body, total, changes, during high volume peripheral hyperalimentation, 196
total, experimental, prediction, early arterial disappearance curve of isotopic water, 371
Wounds
contraction, experimental, force, location, 547
experimental, artery, collagen content, effect of regenerated endothelium, 839
infection, surgical, prevention, povidone-iodine solution, irrigation of subcutaneous tissue, 227

ABSTRACTS SUBJECT INDEX TO VOLUME 148

ABDOMEN
abscess, diagnosis, ultrasonics and gallium scan, 834
endoscopy, carcinoma of pancreas, diagnosis and management, 479
fetoplacental circulation, sampling, hemoglobin identification, 973
jaundice, diagnosis, 969
sterilization, therapeutic abortion, alone or combination, 481
hemorrhage, intractable, control, external counterpressure, 968
hernia, giant, treatment, progressive pneumoperitoneum, 133
omentum, cysts, in children, 474
radiation, response, modified by hypoxia, intra-aortal injection of starch microspheres, 833
resection, urinary tract after, 145
roentgenography, ten day rule, 991
surgery, exploration of middle and upper abdomen during, 300
Hodgkin's disease, after treatment, 133
staging, Hodgkin's disease, 835
intra-abdominal metastasis, carcinoma of breast, 124
vagotomy, adequacy, Congo red test, 820
hepatic, selective, development of gallstones after, 970
highly selective, 301
anterior, with posterior truncal vagotomy, denervation of parietal cell mass, 810
or truncal with pyloroplasty, chronic duodenal ulceration, 808
incomplete, 631
parietal cell, antral-fundic boundary, gastric secretion, 629
tomography, computerized, 654
computerized, lymphoma, 992
trauma, blunt, isolated complete transection of common bile duct, 303
in ski accidents, 965
tuberculosis, 809
tumors, giant, benign, in infants and children, 965
upper, anatomy, computerized tomography and gray scale ultrasonics, 654
wall, excision, and plastic surgery, 300
gastroschisis, fluid requirements, 650
hematoma, spontaneous, 133
wound, closure, monofilament prolene polypropylene suture, 318
Abnormalities and deformities
acquired, lower lip defects, staircase closure, 290
congenital, aganglionosis, colon and anorectum, 475
anencephaly and spina bifida, prevention, alpha-fetoprotein screening of maternal serum, 140
cleft lip, bilateral, surgical treatment, lengthening of short nose, 802
dental rotation, 289
dermoid cysts of nose, comparison with glioma and meningocele, 289
diaphragmatic hernia, posterolateral, survival, 299
treatment, 964
dislocation of hip, 486
and dysplasia, total hip replacement, 981
ductus arteriosus, patent, closure, indomethacin and ligation, 963
silent, 127
esophageal atresia and tracheoesophageal fistula, delayed thoracotomy, 298
exstrophy of bladder, 979
reconstruction, late results in pelvis, 978
flaccid trachea, and tracheoesophageal anomalies, 473
funnel chest, surgical treatment, 803
gastrointestinal tract duplications, 631
gastroschisis, fluid requirements, 650
high imperforate anus, surgical treatment, definition of puborectalis sling, anterior perineal approach, 810
interposition of colon, symptom-producing, mentally deficient adults, 630
interruption of aortic arch, type B, partial cardiopulmonary bypass, in infants, 805
ischemic midgut volvulus, low molecular weight dextran and re-exploration, 809
malformations, arteriovenous, upper extremity, 317
pathogenesis, 655
optic nerve hypoplasia, maternal anticonvulsants, 617
osteogenesis imperfecta, spine, 824
pectus excavatum, correction, without prostheses or splint, 467
pulmonary atresia, ventricular septal defect, 129
renal anomalies, significant, Turner's syndrome, 977
tetralogy of Fallot, operative repair, long term hemodynamic and electrocardiographic assessment, 804
pulmonary atresia, surgical treatment, 470
transposition of great arteries, total correction, conduction disturbances after, in infants, 627
tyrosinemia, transplantation of liver, 993
ureterocele, ectopic, in children, 144
uterine anomalies, metroplasty, obstetric outcome before and after, 307
displaced renal lobe, simulating tumor, 309
extrahepatic, diagnosis, dynamic thoracoabdominal studies, before hepatic imaging, 320
hand, after snakebite, 151
Kirner's deformity, finger, little, 314
malformations, arteriovenous, brain, angiographically occult, 959
arteriovenous, brain, surgical treatment, late results, 960
tumors of bone, transcatheter embolization, 148
Acid-base balance
vaginal deliveries, spontaneous and instrumental, in neonates, 818
Adrenal glands
Cushing's syndrome, autotransplantation, 480
diagnosis, 138
excision, 634
cysts, 814
hyperplasia, and tumors, diagnosis, ultrasonics, 494
tomography, computerized, 834
tumors, pheochromocytoma, intraoperative management, sodium nitroprusside, 971
pheochromocytoma, surgical treatment, 480
Amino acids
derangements, in sepsis, treatment, 831
tyrosinemia, hereditary, transplantation of liver, 993
Amputations
fingers, distal phalangeal parts, replantation, subcutaneous pockets, 982
reimplantation, 830
Gritti-Stokes, in ischemia, 148
hand, and fingers, traumatic, microsurgical reconstruction of blood vessels, 981
Anesthesia
balanced, endotracheal intubation, tolerance, 152
cesarean section, 989
neurologic activity after, in infants, 140
cocaine, concentrations, blood, during rhinoplasty, 651
delirium after, prevention, 153

epidural, ephedrine, intravenous, circulatory effects, 152
ephedrine, prevention of arterial hypotension, 152
gases, concentration and elimination, in operating room theaters, 318
concentration and elimination, in recovery rooms, 318
toxicity, behavioral, 153
general, and local, therapeutic abortion, blood loss during and after, 153
renin-angiotensin system, regulatory function, 651
halothane, behavioral effects, during early development, exposure during pregnancy, 832
severe hepatic necrosis, sensitization to liver components, 832
local, mediastinoscopy, 805
occupational hazards, 651
pentobarbital, deep, cerebral hypometabolism, 835
physical status classification, 651
sympathetic block, peripheral pain, 621

Antibacterial agents
cephradine, prophylactic, vaginal hysterectomy, 832
hexachlorophene, bathing alternatives, newborn infants, 658
metronidazole, intestinal amebiasis and giardiasis, 135
tinidazole, intestinal amebiasis and giardiasis, 135
vancomycin, oral, antibiotic-associated pseudomembranous colitis, 135
pseudomembranous colitis, postoperative diarrhea, 807

Antibiotics
colonic microflora, 630
concentration, wound fluids, after intravenous administration, 989
misuse, in university hospital, 832
oral, bowel preparation, elective operations on colon and rectum, 650, 987
prophylactic, bowel suppression, burn patients, 491
hysterectomy, vaginal flora, 832
transurethral prostatectomy, 152
in vascular surgery, 317
topical, burns, deafness and biochemical imbalance after, in children, 151

Antigens
alpha-fetoprotein, differential diagnosis, biliary atresia, hepatitis, in neonates, 478
serum, maternal, prevention of anencephaly and spina bifida, 140
carcinoembryonic, carcinoma, 496
carcinoma of breast, 125
carcinoma of colon and rectum, indicator of recurrence, 836
hepatitis B surface, hepatocellular carcinoma, 970

Anus
aganglionosis, 475
cancer; carcinoma, external and interstitial irradiation, 154
Crohn's disease, surgical treatment, 475
diseases, benign, operations, urine retention after, 810
imperforate, high, surgical treatment, definition of puborectalis sling, anterior perineal approach, 810

Aorta
abdominal, aneurysms, inflammatory, 315
aneurysms, tube-inlay graft, 984
grafts, infection, 986
aneurysms, surgical treatment, bypass, with and without heparin, 128
arch, interruption, type B, partial cardiopulmonary bypass, in infants, 805
dissection, acute, surgical treatment, 471
surgical and nonsurgical treatment, 983
injection of starch microspheres, hypoxia after, abdominal radiation response, 833
thoracic, aneurysms, ruptured, management, 472
coarctation, atypical, bypass grafts, 297

Ascites
treatment, without sodium restriction and complete removal of fluid, 136

Bacteria
abscess, lung, hilar and mediastinal adenopathy, 469
lung, treatment, in children, 988
antibody-coated, localization of infection, urinary tract, 484
Chlamydia trachomatis, cervicitis, in gynecologic outpatients, 815
peritonitis and perihepatitis, in young women, 650
clostridia, fulminant necrotizing enterocolitis, 809
toxin-producing, pseudomembranous colitis, antibiotic-associated, 650
colonic, influence of bowel preparation and antimicrobials, 630
pathogenesis of gallstones, 993
Corynebacterium parvum, squamous cell carcinoma, 157
Escherichia coli, adhesion to normal uroepithelial cells, infections of urinary tract, in children, 310
growth, biliary tract, after Kasai's operation, 987
operating room, reduction, nonwoven clothing, 492
otitis media, first six weeks of life, 287
pelvic inflammatory disease, acute, pathogenesis, 305
streptococcus, group A, beta-hemolytic, puerperal infection, 140
group B, infantile osteomyelitis, 645
in pharyngeal aspirates, detection of neonatal sepsis, 820
infection, postoperative, overwhelming, 989
vaginal, antibiotic prophylaxis for hysterectomy, 832

Bile
acids, enterohepatic circulation, after cholecystectomy, 137
bilirubin, binding determinations, in neonates, 974
cholestasis, treatment, 812
cholesterol, saturation, pathogenesis of gallstones, 993
jaundice, diagnosis, laparoscopy, 969
gray scale ultrasonics, 494
obstructive, computerized tomography, absence of intrahepatic ductal dilatation, 495
prolonged, breast and bottle fed infants, 303
status of biliary ducts, computerized tomography and ultrasonics, 834

Biliary tract
bacteria, growth, after Kasai's operation, 987
diseases, diagnosis, endoscopic retrograde cholangiopancreatography, 631
ducts, atresia, diagnosis, differential, alpha-fetoprotein, in neonates, 478
atresia, portoenterostomy, 303
calculus, diagnosis, endoscopic retrograde and intravenous roentgenography, 137
cancer; carcinoma, incidence, 478
choledochoduodenostomy, justification, 478
common, calculus, retained, nonoperative removal, 136
transection, complete, isolated, blunt abdominal trauma, 303
extrahepatic, cancer; carcinoma, 304, 812
obstruction, carcinoma of colon, metastatic, 970
status, computerized tomography and ultrasonics, in jaundice, 834
stump, tumors, neuroma, postcholecystectomy syndrome, 970
endoscopic retrograde cholangiopancreatography, incorrect diagnosis, 813
roentgenography, operative, overlooked stones, 137
sphincter of Oddi, division, endoscopic, 811

Bladder
angiography, neoplastic and nonneoplastic lesions, 146
cancer; carcinoma, human, saccharin and cyclamate, 147
colocystoplasty, cecocystoplasty and ileocystoplasty, 146
exstrophy, 979
reconstruction, late results in pelvis, 978
repair, 312
fistula, vagina, closure, vaginal flap, 312
vagina, surgical treatment, 312
neck, closure, continent vesicostomy, urinary incontinence, 484

incision, for retention with overflow, absence of adenoma, 978
necrosis, after selective embolization of internal iliac artery, 493
nerve supply, parasympathetic, damage, after abdominoperineal resection of carcinoma of rectum, 135
outlet, obstruction, excretory urography, preoperative, 979
replacement, use of stomach, 146
roentgenography, micturating, suprapubic, in infants, 319
tumors, chemically induced, bacillus Calmette-Guérin and dinitrochlorobenzene, 656
noninfiltrating, site of recurrence, 823
rheumatoid factor, 644
transitional cell, stage and grade, 484
treatment, implantation of radioactive gold, 147
Blood
antibodies, antithyroid, lymphocytic infiltration of thyroid, 288
red-cell irregular, in pregnancy, 638
thyroid, and thyroid disorders, in children and adolescents, 618
autotransfusion, major surgical procedures, 831
circulation, effects of ephedrine, during epidural blockade, 152
fetoplacental, sampling, hemoglobin identification, laparoscopy and fetoscopy, 973
dialysis, acute renal failure, in infants and children, 643
disease, anemia, sickle cell, diagnosis, antenatal, amniotic fluid cells, deoxyribonucleic acid analysis, 638
anemia, sickle cell, homozygous, early splenomegaly, susceptibility to infection, 634
sickle cell, partial exchange transfusion, preoperative, 318
flow, gastric, cimetidine, 807
lower extremity, lumbar sympathectomy, 648
hemodilution, normovolemic, preoperative, total hip arthroplasty, 316
hemoglobin, HbAlc, indicator of control of diabetes, 498
hemoglobin A_1, in diabetic pregnancy, 818
hemostasis, agents, microfibrillar collagen, renal hemorrhage, 150
agents, topical, bone hemorrhage, 149
leukocytes, polymorphonuclear, dysfunction, recurrent otitis media, in children, 957
lymphocytes, T cell, changes in population, bronchogenic carcinoma, 468
plasma, cryoprecipitated, cadaver kidney preservation, 159
platelets, fresh, stored, or lyophilized, suppression of circulating antiplatelet alloantibodies, 491
renin-angiotensin system, regulatory function, during general anesthesia, 651
Rh immunoglobulin, utilization, after spontaneous and induced abortion, 638
rheumatoid factor, tumors of bladder, 644
thrombocytopenic purpura, idiopathic, emergency splenectomy, in children, 304
immunologic, in pregnancy, 140
thrombocytosis, postsplenectomy, mesenteric, portal and renal vein thrombosis, myeloproliferative disorders, 138
transfusion, emergency, un-crossmatched, 988
kidney graft survival, improvement, 657
operation day, kidney transplantation, allograft survival, 658
typing, microtiter tray method, 492
whole, versus packed red cells, resuscitation of hemorrhagic shock, 150
Blood pressure
high, gestational, perinatal death, 819
spontaneous intracerebral hematoma, in elderly, 620
low, arterial, during epidural blockade, prevention, ephedrine, 152
portal, high, percutaneous transhepatic portography and clinical findings, 302
renal, high, bilateral renal artery stenosis, surgical treatment, 823
Blood vessels
aneurysms, coincidental, with tumors of pituitary gland, 799
rupture, fatal, pulmonary edema after, 461
arteries, Buerger's disease, 985
cardiopulmonary, bypass, partial, type B interruption of aortic arch, in infants, 805
carotid, endarterectomy, 648
external, embolization, therapeutic, 959
fistula, cavernous sinus, treatment, balloon-tipped catheter, 798
cavernous sinus, treatment, occlusion, 959
treatment, proliferative retinopathy after, 957
injuries, penetrating, management, 983
stenosis, diagnosis, phonoangiography and oculoplethysmography, 649
cerebral, anterior, distal, aneurysms, surgical treatment, 960
major, occluded, distal delayed ischemic episodes, 488
spasm, after aneurysm operation, roentgenography, serial, 798
coronary, bypass, grafts, long term function, 128
bypass, grafts, roentgenography, grading, 128
grafts, saphenous vein, patency, long term, 804
preoperative propranolol, 471
previous, operative risk, 296
calcification, diagnosis, fluoroscopy, exercise stress test, 470
disease, left ventricular function, quantitative analysis, 469
obstructive, progression, after aortocoronary bypass operations, 962
vasospasm, myocardial infarction, preinfarction angina, 804
digital, occlusion, ischemia of finger after, treatment, 314
femorofemoral, bypass, grafts, 316
great, transposition, Mustard operation, assessment of late results, 295
transposition, total correction, conduction disturbances, in infants, 627
iliac, internal, selective embolization, bladder necrosis after, 493
and superficial femoral, occlusion, aortoiliac reconstruction, 984
left gastric, roentgenography, and barium swallow, esophageal varices, 132
mesenteric, superior, syndrome, hypotonicduodenography, 808
oxygenation, noninvasive estimation, in newborn infants, 307
pulmonary, atresia, congenital, 129
atresia, tetralogy of Fallot, surgical treatment, 470
embolism, death, after legally induced abortion, 817
diagnosis, inhaled ^{15}O-carbon dioxide imaging, 155
septic, and infarction, 130
renal, embolectomy, bilateral, transfemoral, 489
occlusion, balloon, preoperative, radical nephrectomy, 145
stenosis, bilateral, renovascular hypertension, surgical treatment, 823

LARYNX
ligament, vocal, cancer; carcinoma, radiation therapy, 460
vocal, paralysis, after thyroid operations, 618
Ligament
ankle, lateral, rupture, diagnosis, arthrography, 990
knee, lateral collateral, ruptures, recent, 647
laxity, in secondary school athletes, 646
ulnar collateral, metacarpophalangeal joint of thumb, recent and old injuries, treatment, 825
vocal, cancer; carcinoma, radiation therapy, 460
paralysis, after thyroid operations, 618
Liver
abscess, amebic, surgical treatment, 137
bile acids, circulation, after cholecystectomy, 137
Budd-Chiari syndrome, inferior vena caval thrombosis, iliac-mesenteric-atrial shunt, 812
cancer; carcinoma, diagnosis, cytology, 970
hepatocellular, and age, sex, hepatitis B surface antigen, underlying cirrhosis, 970
angiography, 969
oral contraceptives, 156
resection, major, 479
treatment, 5-fluorouracil, regional, intra-arterial, 632
cysts, primary, diagnosis, ultrasonics, 155
disease, alcoholic, biopsy, mitochondrial enzyme activity, 632
fibrosis, Thorotrast, and angiosarcoma, orthotopic transplantation, 633
hyperplasia, focal nodular, and oral contraceptives, 812
imaging, extrahepatic abnormalities, diagnosis, dynamic thoracoabdominal studies before, 320
infarction, nonocclusive, angiography, scintigraphy, microscopy, 653
inflammation, diagnosis, differential, alpha-fetoprotein, in neonates, 478
masses, diagnosis, scintiangiography, in children, 493
metastases, diagnosis, ultrasonics and isotope scanning, 833
necrosis, severe, after halothane anesthesia, sensitization to altered liver components, 832
reticuloendothelial system, host defense, failure, prevention, intravenous opsonic glycoprotein therapy, 490
scan, subphrenic abscess, 155
size, determination, quantitative, 632
tumors, hepatoma, dysfibrinogenemia, increased carbohydrate content of fibrinogen molecule, 136
hepatoma, transplantation, 993

injection of corticosteroids, into mother, 141
split, test, and pneumonectomy, 294
infection, after renal transplantation, 322
lesions, peripheral, fiberoptic bronchoscopy, under fluoroscopy, 126
masses, peripheral, diagnosis, bronchoscopy, needle aspiration, 127
Mendelson's syndrome, edematous lesion, 293
metastasis, malignant melanoma, tumor doubling times, 295
osteogenic sarcoma, resection, in children, 293
sarcoma, resection, 295
peripheral, masses, needle core biopsy, percutaneous, 468
resection, median sternotomy, indications, 804
right, arteriovenous fistulas and dilated vessels, after Glenn procedure, surgical treatment, 294
Lymph
obstruction, relief, bridge of mesentery and ileum, 986
Lymphatic system
lymph nodes, axillary, carcinoma of breast, prognosis, 465
axillary, positive and negative, carcinoma of breast, relapse and survival, 290
draining tumor-bearing area, technetium-labeled sulfide colloid uptake, 489
hilar, and mediastinal, disease, bacterial abscess of lung, 469
intrathoracic, metastases, from extrathoracic neoplasms, 131
metastasis, carcinoma of cervix uteri, 635
carcinoma of thyroid, differentiated, 288
early, osteogenic and soft tissue sarcoma, 289
melanoma, malignant, 123
roentgenography, extremities, edema, after reconstructive vascular procedures, femoropopliteal, 488

Mediastinum
endoscopy, local anesthesia, 805
Metabolism
hypoactive, cerebral, deep pentobarbital anesthesia and hypothermia, 835
maternal, smoking during pregnancy, 306
response, total parenteral nutrition, postoperative, in children, 831
transplantation of isologous islets of Langerhans, 322

Miscellaneous
surgical residents and unions, 160
Mouth
lip, cleft, bilateral, surgical lengthening of short nose, 802
cleft, dental rotation, 289
lower, defects, staircase closure, 290
oral cavity, defects, reconstruction, immediate, microvascular free flaps, 623
Muscle
extensor digitorum communis, injury or disease, sign of horns, 487
flap, island, crossleg, immediate, 290
gastrocnemius, flap, 123
gracilis, flap, island, repair of ischial pressure ulcers, 123
latissimus dorsi, flap, major defects of chest wall and spine, 465
orbicularis oculi, reflexes, after trigeminal nerve operations, 800
soleus, flap, inferiorly based, 464
sphincter of Oddi, division, endoscopic, 811

Neck

central, damage, spinal fluid procoagulant activity, 119
disorders, in pregnancy, 816
epilepsy, focal, surgical management, in children, 120
meninges, myelomeningocele, vertebral and rib malformations, roentgenography, in children, 462
parasympathetic, aganglionosis, colon and anorectum, 475
sympathetic, lumbar, resection, blood flow in lower extremities, 648
tumors, neuroblastoma, dumbbell, in children, 462
neuroma, acoustic, neurosurgical and otolaryngologic approaches, 120
Nose
cysts, dermoid, congenital, comparison with glioma and meningocele, 289
short, surgical lengthening, bilateral cleft lip, 802
surgery, cocaine, concentrations in blood, 651
Nutrition
elemental diet, intestinal fistulas, postoperative, 474
parenteral, home, in children, 491
total, catheter infection factors, 490
postoperative, metabolic response, in children, 831
after total gastrectomy, 810

Obesity
intestinal bypass, metabolic bone disease after, 486
morbid, surgical treatment, 968
Orbit
defects, major, repair, elastomer-coated mesh and autogenous bone paste, 623
diagnosis, dysthyroid ophthalmopathy, ultrasonics and computerized tomography, 833
floor, reconstruction, Silastic lamina, 796
tumors, diagnosis, fine needle biopsy, 957
Ostomy
bladder, continent, urinary incontinence, closure of bladder neck, 484
colon, indications, 134
ureteroureteral, disease of single ureter, with ureteral duplication, 309
Ovaries
cancer; carcinoma, surgical treatment, radioactive phosphorus and external radiation adjuvant, 305
follicles, and hormones, primary and secondary amenorrhea, 816
hemorrhage, anticoagulants, 139
ovulation, induction, amenorrhea, 972
polycystic, syndrome, diagnosis, androgen measurements, 305
pregnancy, intrauterine contraceptive devices, 636
tumors, cystadenoma, estrogenic activity, after menopause, 635
germ cell, malignant, treatment, vincristine, dactinomycin, and cyclophosphamide, 837
teratoma, malignant, prognosis and treatment, 305
vein, syndrome, 310
Oxygen
arterial, noninvasive estimation, in newborn infants, 307
fetus, effect of isoproterenol, 640
hyperbaric, treatment, burns, 151

Pain
peripheral, sympathetic blocks, 621
Pancreas
allografts, human, angiography and scintigraphy, 154
anatomy, ultrasonics, 653
cancer; carcinoma, diagnosis, and management, laparoscopy, 479
diagnosis, percutaneous fine needle aspiration biopsy, 813

CONTENTS

THE OUTCOME OF EXCISIONAL OPERATIONS FOR PRIMARY AND RECURRENT CROHN'S DISEASE OF THE LARGE INTESTINE. J. C. Goligher, CH.M., F.R.C.S.(EDIN.)(ENG.), F.A.C.S.(HON.), *Leeds, England* 1

EFFECTS OF LOW MOLECULAR WEIGHT DEXTRAN ON BLOOD VISCOSITY AFTER CRANIOTOMY FOR INTRACRANIAL ANEURYSMS. Allan M. Burke, M.D., Shu Chien, M.D., James G. McMurtry III, M.D., F.A.C.S., *and* Donald O. Quest, M.D., *New York, New York*. 9

POSTOPERATIVE EVALUATION OF THE EXOCRINE FUNCTION OF THE PANCREAS AFTER PANCREATICODUODENECTOMY. K. Mori, M.D., A. Misumi, M.D., M. Sugiyama, M.D., Y. Sakamoto, M.D., J. Ishii, M.D., T. Kaneko, M.D., *and* M. Akagi, M.D., *Kumamoto, Japan* . . . 16

FLEXIBLE SIGMOIDOSCOPY AS A SCREENING PROCEDURE FOR NEOPLASIA OF THE COLON. Gilbert R. Lipshutz, M.D., Ronald M. Katon, M.D., Michael F. McCool, M.D., Barry Mayer, M.D., Frederick W. Smith, M.D., Teresita Duffy, B.S., *and* Clifford S. Melnyk, M.D., *Portland, Oregon* 19

MORBIDITY OF A NEGATIVE FINDING AT LAPAROTOMY IN ABDOMINAL TRAUMA. Scott R. Petersen, M.D., *and* George F. Sheldon, M.D., F.A.C.S., *San Francisco, California* . . 23

SELECTIVE AND RECONSTRUCTIVE SURGICAL PROCEDURES FOR CARCINOMA OF THE BREAST. Henry P. Leis, Jr., M.D., F.A.C.S., *New York, New York* 27

GRACILIS MUSCLE FLAP FOR CLOSURE OF THE PERSISTENT PERINEAL SINUS. Benjamin E. Cohen, M.D., *Houston, Texas, and* John A. Ryan, Jr., M.D., *Seattle, Washington*. 33

CHOLELITHIASIS FOLLOWING SUBTOTAL GASTRIC RESECTION WITH TRUNCAL VAGOTOMY. M. Andrew Sapala, M.D., F.A.C.S., James A. Sapala, M.D., Andres D. Resto Soto, M.D., F.A.C.S., *and* David L. Bouwman, M.D., *Detroit, Michigan* . . . 36

LIPASE AND COLIPASE IN CANINE PANCREATIC JUICE AS ETIOLOGIC FACTORS IN FAT NECROSIS. P. C. Lee, PH.D., Y. Nakashima, M.D., H. E. Appert, PH.D., *and* J. M. Howard, M.D., F.A.C.S., *Toledo, Ohio* 39

THE CHOICE OF AN INTESTINAL SEGMENT FOR A URINARY CONDUIT. R. E. Schlesinger, M.D., *Fullerton, California,* M. L. Berman, M.D., *Pittsburgh, Pennsylvania,* S. C. Ballon, M.D., L. D. Lagasse, M.D., *Los Angeles, California,* W. G. Watring, M.D., *Boston, Massachusetts,* R. J. Futoran, M.D., *and* J. G. Moore, M.D., *Los Angeles, California* 45

CHRONIC MESENTERIC ISCHEMIA MASQUERADING AS CANCER. Bernd Gluecklich, M.D., Ralph A. Deterling, Jr., M.D., F.A.C.S., Gary H. Matsumoto, M.D., *and* Allan D. Callow, M.D., F.A.C.S., *Boston, Massachusetts* 49

PRESERVATION OF THE PANCREAS FOR TRANSPLANTATION. Luis H. Toledo-Pereyra, M.D., Krishna D. Valjee, M.D., *Detroit, Michigan,* Manuel Chee, M.D., *Phoenix, Arizona, and* Richard C. Lillehei, M.D., F.A.C.S., *Minneapolis, Minnesota* 57

GASTRIC ULCERATION AFTER A FUNDOPLICATION OPERATION FOR GASTROESOPHAGEAL REFLUX. C. G. Bremner, CH.M., F.R.C.S.(EDIN.)(ENG.), *Johannesburg, South Africa* 62

AN EXPERIMENTAL STUDY OF THE CORRECTION OF GASTROESOPHAGEAL REFLUX BY GASTROPLASTY. T. Ali Khan, M.SC., F.R.C.S.(ENG.)(C), *and* V. G. Garzo, M.D., *Winnipeg, Manitoba, Canada* 65

LYOPHILIZATION OF CRYSTALLINE HEMOGLOBIN SOLUTION AND EXCHANGE TRANSFUSIONS WITH LYOPHILIZED, RECONSTITUTED HEMOGLOBIN. Frank De Venuto, PH.D., Angelo I. Zegna *and* Ken R. Busse, B.A., *San Francisco, California* 69

PREVENTION OF HYPOCALCEMIA IN CHILDREN DUE TO PARATHYROID INFARCTION AFTER THYROIDECTOMY. Hernan M. Reyes, M.D., F.A.C.S., *Chicago, Illinois,* James K. Wright, M.D., *Los Angeles, California, and* Robert L. Rosenfield, M.D., *Chicago, Illinois* 76

IMMEDIATE AND LONG TERM EFFECTS OF INSTRUMENTAL DILATION OF THE SPHINCTER OF ODDI. David M. Heimbach, M.D., F.A.C.S., *and* Thomas T. White, M.D., F.A.C.S., *Seattle, Washington* 79

SUBJECT INDEX TO VOLUME 149

ABDOMEN
abscess, ultrasonic detection and aspiration, 529
retroperitoneal space, cross pelvic bypass grafts, 500
roentgenography, diangosis, upper part, 161
surgery, aorta, resection, coagulation of blood, 214
aortic reconstruction, ischemic colitis, following, 571
celiotomy, arterial monitoring through inferior epigastric artery, 399
experimental, abdominoperineal resection, prevention of radiation enteritis, 206
vagotomy, hyperselective, duodenal ulcer, 663
Abnormalities and deformities
intestine, arteriovenous, 712
Amputations
level, selection, noninvasive hemodynamic evalution, 241
Aneurysms
experimental, chronic changes in walls, 43
Antibiotics
intraluminally, experimental, and cooling, effects on surgically induced ischemia of intestine, 377
Antigens
levels, carcinoembryonic, as indicator for reoperation in carcinoma of colon and rectum, 22
Anus
surgery, sphincteroplasty, 78
Aorta
abdominal, reconstruction, ischemic colitis following, 571
surgery, resection changes in coagulation of blood, 214
surgery, resection, coagulation of blood, 214

BILE
flow, experimental, influence of hypoxia, and hemorrhage, upon adenylate energy charge, 346
jaundice, experimental, differential, diagnosis, glucagon stimulated plasma cyclic adenosine monophosphate in, 503
mechanism of suppression of renal function, 54
Biliary tract
ducts, common, calculus, antegrade extraction, 895
supra-ampullary carcinoma, 681
surgery, antegrade extraction, of common duct stones, 895
Blood
bacteremia, bacteroides, clinical implications, 189
circulation, experimental, effects, of endotoxin on unanesthetized sheep and response to dopamine, 337
failure, acute, measurement of toe temperature, 1
coagulation, changes, during resection of abdominal aorta, 214
dialysis, immediate and chronic, vascular access, 252
dilution, intraoperative, during elective vascular reconstruction, 831
disease, splenectomy, 509
fibrinolysis, responses, during surgical operation, effect of intermittent compression of calf, 380
hemodynamics, evaluation, noninvasive, in selection of amputation level, 241
hemoglobin, experimental, stroma and stroma-free, renal vascular effects, 874
hemorrhage, experimental, influence upon adenylate energy charge and bile flow, 346
hyperammonemia, experimental, following ureterocolostomy, 183
lymphocytes, peripheral, in carcinoma of colon and rectum, 719
plasma, experimental, cyclic adenosine monophosphate, glucagon stimulated, in differential diagnosis of jaundice, 503
free amino acid changes in obese patients following jejunoileal bypass, 513
supply, experimental, anastomotic, assessment by Doppler ultrasound, 15
volume, therapy, myocardial performance curves, 863
Blood pressure
portal, high, children with cystic fibrosis, distal splenorenal shunt, 559
Blood vessels
arteries, aorto- or iliofemoral bypass, revascularization of lower extremity, 676
aortofemoral, bypass, for exercise ischemia, improvement, 374
carotid, endarterectomy, recurrent stenosis, 360
hepatic, ligation, and dearterialization and infusion chemotherapy, in malignant hepatic lesions, 403
inferior epigastric, arterial monitoring, during celiotomy, 399
surgery, carotid, endarterectomy, recurrent stenosis, 360
arteriovenous, intestine, malformations, 712
experimental, effects of methyl methacrylate monomer, 61
permeability, relationship to burn size, 193
peripheral disease, radioactive oxygen to study muscle function, 225
shunts, ventriculoperitoneal, infected, gram-positive peritonitis, 69
surgery, access, for immediate and chronic hemodialysis, 252
aorto- or iliofemoral bypass, revascularization of lower extremity, 676
aortofemoral bypass, for exercise ischemia, improvement, 374
bypass grafts, retroperitoneal cross pelvic, 500
portacaval and splenorenal shunts, survival, 220
reconstruction, elective, intraoperative hemodilution, 831
splenorenal shunt, distal, thrombosis of portal vein, 847
vascular homografts, cadaveric donors, 737
veins, catheterization, prolonged central, risk of infection in, 567
deep, thrombosis, heparin, monitoring, with thromboelastography, 843
experimental, protacaval shunt, atrophy of liver following, Carynebacterium parvum in prevention, 168
jugular, external, right atrial catheter insertion, 735
portal, thrombi, following distal splenorenal shunt, 847
saphenous, short 49
shunt, splenorenal, distal, decompression of portal hypertension in children with cystic fibrosis, 559
surgery, mesocaval grafts, 518
Bones
epicondyle, inflammation, resistant lateral, of elbow, treatment, by lengthening of extensor capri brevis tendon, 526
fracture, zygoma, immobilization, with antral pack, 587
scans, value, in carcinoma of breast, 523
Breast
cancer; carcinoma, 321
early detection, immunodiagnostic test, 655
modified radical mastectomy, 738
value of bone scans, 523
surgery, mastectomy, modified radical, 738
Burns
size, experimental, relationship, to vascular permeability, 193

CANCER
bile duct, supra-ampullary carcinoma, 681
breast, carcinoma, 321
carcinoma, early detection, immunodiagnostic test, 655
surgery, mastectomy, modified radical wound, 738

value of bone scans, 523
caloric requirement, determination, in patients, 667
colon, carcinoma, detection, colonoscopy, 877
carcinoma, and rectum, carcinoembryonic antigen levels as indicator for reoperation, 22
and rectum, peripheral lymphocytes, 719
immunity, therapy, contact nonspecific and cytoreduction and chemotherapy for Stage III carcinoma of ovary, 837
ovary, carcinoma, Stage III, cytoreduction, chemotherapy and contact nonspecific immunotherapy for, 837
prognosis, clinical presentation and natural history factors, in advanced malignant melanoma, 687
vagina, adenocarcinoma, primary, 233
viscera, carcinoma, long term survival of patients, 385
survival, long term, 385
Chemotherapy
and cytoreduction and contact nonspecific immunotherapy for Stage III carcinoma of ovary, 837
infusion, technique, and ligation of hepatic artery and dearterialization in malignant hepatic lesions, 403
tourniquet, in extremities with malignant lesions, 481
Collective review
Abdominal actinomycosis, 257
Appraisal of hemoglobin solution as blood substitute, 417
Consideration and implications of tumor antigenic expression, 770
Current status of surgery of omentum, 437
Dilemma regarding postoperative chemotherapy in primary carcinoma of colon, 267
Electrical injuries, 97
Endocrine tumors of pancreas, 751
Home parenteral nutrition, 593
Reconstruction of breast after mastectomy for cancer, 109
Treatment of carcinoma of breast, 911
Wound healing and diabetic patient, 600
Cystic duct
experimental, resistance, sphincter-like properties, 177
Cysts
choledochal, surgical treatment, 36
face, and sinuses resulting from dental abscesses, 717

DRUGS
dopamine, experimental, response, and circulatory effects of endotoxin on unanesthetized sheep, 337
glucagon, experimental, stimulated plasma cyclic adenosine monophosphate, in differential diagnosis of jaundice, 503
glucocorticoids, experimental, use in refractory shock, 369
heparin, monitoring, with thromboelastography, 843
vaccine, bacille Calmette Guérin, intralesional infection, and hyperthermic perfusion, for treatment of melanoma of lower extremity, 17
Dyes
indocyanine green, clearance, in critically ill, 852

EDITORIAL
Biologic dual effects of anesthesia and surgical treatment in patient with cancer, 245
Pig skin over open wounds, 395
Place for sympathectomy in arteriosclerotic occlusive disease, 72
Recertification, 245
Selective usage of original and modified Baker intestinal tube, 577
Thyroid scans and diagnosis of carcinoma of thyroid, 729
Turn, cough and deep breathe, 887
Endotoxins
circulatory effects, experimental, response to dopamine, 337
Enzymes
beta glucuronidase, experimental, purified infusion, effect, in normal dogs and dogs with acidosis, 173
Esophagus
surgery, esophagectomy, extrathoracic, total, and pharyngolaryngectomy and gastric transposition, 693
pharyngolaryngoesophagectomy, intestinal autografts for reconstruction, 858
Extremities
lower, calf, intermittent compression, effect, on fibrinolytic response in blood during surgical operation, 380
melanoma, treatment, intralesional infection of bacille Calmette Guérin and hyperthermic perfusion, 17
revascularization, synchronous aorto- or iliofemoral bypass, 676
treadmill walking test, for claudication, reproducibility, 727
malignant lesions, chemotherapy, tourniquet infusion, 481

FACE
cysts, and sinuses, resulting from dental abscesses, 717
Foot
plantar surface, split thickness skin grafts, 229
toe, temperature, assessment, severity of acute circulatory failure, 1
Fractures
zygoma, immobilization, with antral pack, 587

GALLBLADDER
cysts, surgical treatment, 36
Gonadotropin
human chorionic radioreceptor assay, and pelvic ultrasonography, in clinical diagnosis of ectopic pregnancy by, 539

HEART
atrium, right, catheter insertion through external jugular vein, 735
blood supply, experimental, effects of methyl methacrylate, 61
muscle, performance curves, guide to volume therapy, 863
Hormones
stress, experimental, role in catabolic metabolism of shock, 822

IMMUNITY
host resistance, acute infection, granulocyte adherence assay, 879
therapy, contact nonspecific, and cytoreduction and chemotherapy for Stage III carcinoma of ovary, 837
Infants
catheter fixation, new technique, 896
newborn, necrotizing enterocolitis, treatment, operative technique, 740
Infection
acute, granulocyte adherence assay, and host resistance, 879
central venous catheterization, risk, 567
Instruments and apparatus
Doppler ultrasound, experimental, assessment of anastomotic blood supply, 15
intraoperative assessment of intestinal viability, 671
intestinal tube, long, 581
ultrasound, detection, and aspiration, 529
pelvic, and radioreceptor assay of human chorionic gonadotropin, in clinical diagnosis of ectopic pregnancy, 539
Intestines
anorectum, bleeding, 506
blood supply, experimental, ischemia, surgically induced, effects of cooling and intraluminally administered antiseptics, 377
colon, anastomosis, experimental, blood supply, assessment, by Doppler ultrasound, 15
anastomosis, experimental, comparative results of three different techniques, 238
cancer; carcinoma, carcinoembryonic antigen levels, 22
inflammation, ischemic, incidence, following abdominal aortic reconstruction, 571
necrotizing, neonatal, operative technique, 740
and rectum, cancer; carcinoma, peripheral lymphocytes, 719
surgery, experimental, assessment of anastomotic blood supply by Doppler ultrasound, 15

experimental, ureterocolostomy, hyperammonemia, 183
vascular estasias, 353
duodenum, ulcers, hyperselective vagotomy, 663
ulcers, retrospective study of operations, 703
grafts, auto-, for reconstruction following pharyngolaryngoesophagectomy, 858
ileum, stoma, loop, alternative to end stoma, 585
inflammation, experimental, radiation, prevention, after abdominoperineal resection, 206
jejunoileal, bypass, degenerating liver function, protein supplementation, 8
bypass, free amino acid changes in plasma and muscle, 513
large, cancer; carcinoma, colonoscopy, 877
malformations, arteriovenous, 712
rectum, ano-, abscess, 884
cancer; carcinoma, carcinoembryonic antigen levels, 22
prolapse, massive, sacrofixation with Marlex mesh, 709
small, cutaneous fistula, 333
surgery, jejunoileal bypass, degenerating liver function, protein supplementation, 8
jejunoileal bypass, free amino acid changes in plasma and muscle, 513
protection, during radiation of pelvic bone, 33
technique for neonatal necrotizing enterocolitis, 740
viability, intraoperative assessment, with Doppler ultrasound, 671

Isotopes
^{15}O, study of muscle function in peripheral vascular disease, 225
scintiscan, bone, value, in carcinoma of breast, 523
malignant melanoma evaluation, 574

JOINTS
atlantoaxial, dislocation, chronic management, 534
elbow, resistant lateral, treatment, by lengthening of extensor capri brevis tendon, 526
knee, dislocation, complications, vascular and orthopedic, 554

KIDNEYS
blood supply, experimental, effects of stroma and stroma-free hemoglobin, 874
function, mechanism of suppression, in patients and rabbits with jaundice, 54
transplantation, allograft, cadaver, results, delayed primary renal function, 697
cadaver, thoracic duct drainage before and after, 815

LARYNX
surgery, pharyngolaryngoesophagectomy, intestinal autografts for reconstruction, 858
pharyngolaryngectomy, total extrathoracic esophagectomy and gastric transposition, 693

Liver
abscess, pyogenic, clinical aspects, 209
atrophy, experimental, following portacaval shunt, Carynebacterium parvum in prevention, 168
function, degenerating, protein supplementation in management, after jejunoileal bypass, 8
surgery, technique of infusion chemotherapy, and ligation of hepatic artery and dearterialization in malignant lesions, 403
transplantation, suprahepatic recipient vena cava cuff, 76
tumors, malignant, technique of infusion chemotherapy, and ligation of hepatic artery and dearterialization, 403

MOUTH
abscesses, dental, cysts and sinuses of face, 717

Muscles
free amino acid changes, in obese patients following jejunoileal bypass, 513
physiology, radioactive oxygen, in peripheral vascular disease, 225

NECK
surgery, elective, 65

Nutrition
caloric requirement, determination, in patients with cancer, 667
mal-, gastrostomy to correct, 27
protein, supplementation, management of degenerating liver function after jejunoileal bypass, 8

OBESITY
free amino acid changes in plasma and muscle, following jejunoileal bypass, 513

Ovary
cancer; carcinoma, Stage III, cytoreduction, chemotherapy and contact nonspecific immunotherapy for, 837

Oxygen
influence, experimental, and hemorrhage on adenylate energy charge and bile flow, 346

PANCREAS
abscess, 722
diabetes, gangrene, infected, microbiology of superficial and deep tissue, 217

Pediatrics
cystic fibrosis, portal hypertension, distal splenorenal shunt, 559

Pelvis
bone, radiation, protection of intestine, 33

Peritoneum
inflammation, gram-positive, in patients with infected ventriculoperitoneal shunts, 69
lavage, technique, 889

Pharynx
surgery, pharyngolaryngoesophagectomy, intestinal autografts for reconstruction, 858
pharyngolaryngectomy, total extrathoracic esophagectomy and gastric transposition, 693

RADIATION
enteritis, experimental, prevention, after abdominoperineal resection, 206
therapy, of pelvic bone, protection of intestine, 33

Roentgen rays
diagnosis, imaging of upper part of abdomen, 161

SALIVARY GLAND
drainage, into thyroglossal duct, 203

Shock
Escherichia coli, experimental, from recovery, lethal dose, 545
experimental, refractory, use of glucocorticoids in, 369
role of stress hormones in catabolic metabolism, 822

Sinuses
face, and cysts, resulting from dental abscesses, 717

Skin
grafts, flap, simple geometric, for closure of skin defects, 249
split thickness, plantar surface of foot, after wide excision, 229
porcine heterograft dressings, 893
surgery, simple geometric flap for closure of skin defects, 249
tumors, surgery, wide excision, split thickness skin grafts, 229

Spleen
excision, for hematologic disease, 509

Stomach
excision, extent, peroperative technique for determining, 81
surgery, gastrostomy, to correct malnutrition, 27
transposition, pharyngolaryngectomy and total extrathoracic esophagectomy, 693

Surgeon's library
Consideration in choice of surgical needles, 84
Historical perspective of floor of mouth, 745
In and out of academic arena, 408
Unanswered mysteries in the death of Franklin D. Roosevelt, 899

Surgery
blood, fibrinolytic responses, during operation, effect of intermittent compression of calf, 380
elective, vascular reconstruction, intraoperative hemodilution, 831
experimental, assessment of anastomotic blood supply by Doppler ultrasound, 15
cardiovascular effects of methyl methacrylate monomer, 61
chronic changes in walls of aneurysms, 43
circulatory effects of endotoxin on unanesthetized sheep and response to dopamine, 337

colonic anastomosis, comparative results of three different techniques, 238
effect of Carynebacterium parvum in prevention and reversal of atrophy of liver following portacaval shunt, 168
of cooling and intraluminally administered antiseptics on surgically induced ischemia of intestines, 377
of purified beta glucuronidase infusion in normal dogs and dogs with acidosis, 173
hyperammonemia following ureterocolostomy, 183
prevention of radiation enteritis after abdominoperineal resection, 206
relationship of burn size to vascular permeability, 193
renal vascular effects of stroma and stroma-free hemoglobin, 874
resistance and sphincter-like properties of cystic duct, 177
shock, stress hormones in catabolic metabolism, 822
use of glucocorticoids in refractory shock, 369
infection, incisions, improved technique for delayed primary closure, 401
postoperative complications, anorectal bleeding, 506
thrombosis of portal vein following distal splenorenal shunt, 847
postoperative results, mechanism of suppression of renal function, 54
postoperative study, carotid endarterectomy, recurrent stenosis, 360
incidence of ischemic colitis following abdominal aortic reconstruction, 571
retrospective, peptic ulcer, 703
tests and management affecting survival after portacaval and splenorenal shunts, 220
reconstructive, intestinal autografts, following pharyngolaryngoesophagectomy, 858
technique, antegrade extraction of common duct stones, 895
arterial monitoring through inferior epigastric artery during celiotomy, 399
delayed primary closure of potentially infected incisions, 401
development of suprahepatic recipient vena cava cuff for liver transplantation, 76
experimental, three different, comparative results, for colonic anastomosis in dog, 238
of infusion chemotherapy, ligation of hepatic artery and dearterialization in malignant hepatic lesions, 403
loop ileostomy as alternative to end stoma, 585
microsurgical removal of lumbar herniated nucleus pulposis, 247
modified radical mastectomy, 738
operative cholangiography, use of glucagon, 583
new, catheter fixation in infant, 896
peritoneal lavage, 889
peroperative, for determining extent of gastrectomy, 81
pharyngolaryngectomy, total extrathoracic and gastric resection, 693
reconstructive, sphincteroplasty, anal, 78
right atrial catheter insertion through external jugular vein, 735
sacrofixation with Marlex mesh in massive prolapse of rectum, 709
simple geometric flap for closure of skin defects, 249
for treatment of neonatal necrotizing enterocolitis, 740
vascular access for immediate and chronic hemodialysis, 252
vascular homografts, cadaveric organ donors, 737
Surgical pros and cons, 74-75; 396; 579; 731; 731

TENDONS
surgery, lengthening of extensor capri radialis, treatment of resistant lateral epicondylitis of elbow, 526
Thyroid
salivary gland, drainage into thyroglossal duct, 203
surgery, cricothyroidotomy, clinical evaluation, 365
hormonal aspects of suction drainage, 343
Transplants
grafts, bypass, retroperitoneal cross pelvic, 500
homografts, cadaveric vascular, 737
mesocaval, 518
heterografts, porcine, split thickness grafts, 893
intestinal, for reconstruction following pharyngolaryngoesophagectomy, 858
kidneys, allograft, cadaver, results, delayed primary renal function, 697
cadaver, thoracic duct drainage before and after, 815
liver, suprahepatic recipient vena cava cuff, 76
Trauma
cold, epidemiology, 326
creatinine and nitrogen excretion, 561
Tumors
adenoma, primary, of vagina, 233
foot, plantar surface, excision, split thickness skin grafts, 229
malignant, extremities, tourniquet infusion chemotherapy, 481
melanomas, development from subcellular fractions, 491
lower extremity, treatment, intralesional infection of bacille Calmette Guérin and hyperthermic perfusion, 17
malignant, advanced, clinical presentation, natural history and prognostic factors, 687
scintiscans, 574

URETERS
surgery, experimental, ureterocolostomy, hyperammonemia, 183
Uterus
pregnancy, ectopic, diagnosis, simultaneous use of pelvic ultrasonography and radioreceptor assay of human chorionic gonadotropin, 539

VAGINA
cancer; carcinoma, adenocarcinoma, primary, 233
Vertebral column
lumbar, herniated nucleus pulposis, microsurgical removal, 247
Vitamins
A, reversal, of postoperative immunosuppression, 658

WOUNDS
penetrating, of buttock, 855

SURGERY OF THE HEAD AND NECK

Scalp and Maxillofacial Surgery

Temporal Bone Anomalies Associated with Congenital Heart Disease 121
The Social Effects of Craniofacial Deformity and Its Correction 278
Transverse Maxillary Growth in Combined Cleft Lip and Palate; a Longitudinal Roentgencephalometric Study by the Implant Method 448
Fiber Implantation for Pattern Baldness 614
A Quantitative Histologic Study of Tissue Responses to Ramal Sagittal Splitting Procedures 784
Association of Squamous Cell Carcinoma of the Head and Neck with Cancer of the Esophagus 784
Treatment of Initially Infected Mandibular Fractures with Bone Plates 784
Granular Cell Tumors of the Head and Neck 784

Eyes

Uses of the Temporalis Muscle Flap in Blanking Out Orbits 121
Implantation of a Scleral Strip into the Supraciliary Space and Cyclodialysis in Glaucoma 121
Congenital Nystagmus Surgery; a Quantitative Evaluation of the Effects 121
Management of Nonmagnetic Intraocular Foreign Bodies; a New Approach with the Aid of Diagnostic X-Ray Spectrometry 121
Tolerance of the Lacrimal Puncta and Canaliculi to Cryotherapy Used in the Treatment of Carcinoma of the Medial Canthus of the Eye 278
Surgical Correction of Senile Entropion of the Lower Lid with Fascia Lata Sling 278
The Use of Low Dose Superficial Irradiation in Cavernous Hemangioma of the Eyelid 278
Medial Rectus Injury From Intranasal Surgery 278
Value of Fluorescein Iridography in Diagnosis of Tumours of the Iridociliary Zone 448
Diurnal Changes of the Intraocular Pressure of Patients with Angle-Closure Glaucoma 614
Transient Ocular Hypertension Following Trabeculectomy 614
Silicone Oil in the Treatment of Massive Preretinal Retraction—I, Results in 105 Eyes 614
Silicone Oil Injection in the Treatment of Massive Preretinal Retraction—II, Late Complications in 93 Eyes 614
Thyroid Carcinoma Metastatic to the Globe 614
HLA and Eye Disease 614
Primary Cutaneous Malignant Melanoma Metastatic to the Iris 615
An Aid to Successful Probing of the Nasolacrimal Duct. 784
Epitheliomas of the Eyelids; Statistical Analysis and Personal Experience in 75 Cases 784
HLA Antigens in Glaucoma and Ocular Hypertension. 784

Ears, Nose and Sinuses

Endonasal Sinus Surgery with Endoscopical Control; from Radical Operation to Rehabilitation of the Mucosa 121
Use of Lyophilized Dura in Aural Surgery 121
Perilymph Fistulas; Diagnostic Criteria and Therapy 122
Nasal Cancer Associated with Occupational Exposure to Organic Dust 278
Ear Cartilage Grafts to the Nose 278
Pathology of Chronic Otitis Media 279
Lateralisation of Tumours of the Nasal Cavity and Paranasal Sinuses and Its Relationship to Aetiology .. 448
Endoscopy of the Nose and Nasopharynx 448

Mouth, Hypopharynx and Larynx

Speech Rehabilitation After Total Laryngectomy Using the Staffieri Techniques 122
Congenital Choanal Atresia 279
Our Experience with Pharyngoesophageal Reconstruction 448
Completion Laryngectomy 615
Tongue Lesions in Children 785
Cefazolin Prophylaxis in Head and Neck Cancer Surgery 785

Salivary Glands

Carcinoma of Stensen's Duct 448
Function of Submaxillary Gland Following Iatrogenic Damage to Chorda Tympani Nerve 449

Thyroid and Parathyroid Glands

Current Trends in the Treatment of Thyrotoxicosis .. 122
Outcome in Papillary Carcinoma of the Thyroid 122
Abnormalities of Thyrotrophin Secretion and Clinical Implications of the Thyrotrophin Releasing Hormone Stimulation Test 279
Primary Hyperparathyroidism; the Value of Histologic Investigation with Conservative Operative Technique 280
The Role of Ultrasound Scanning in the Diagnosis of Thyroid Swellings 280
Autotransplantation of Cryopreserved Parathyroid Tissue in Man 449
The Effects of L-Dopa on in Vitro and in Vivo Calcitonin Release from Medullary Thyroid Carcinoma 449
Correlation Between Thyrotropin-Displacing Activity and Human Thyroid-Stimulating Activity by Immunoglobulins from Patients with Graves' Disease and Other Thyroid Disorders 615
Hyperthyroidism in the Elderly 785
Intrathoracic Goitre; a Review of 29 Cases 785
Acute Suppurative Thyroiditis in Children 785

SURGERY OF THE NERVOUS SYSTEM

Cerebrum and Cerebellum

Microsurgical Treatment of Transient Cerebral Ischemia; Preliminary Results in 50 Patients 123
Intraventricular Administration of Amikacin for Complicated Gram-Negative Meningitis and Ventriculitis 123
Defects of the Central Nervous System in Finland—IV, Associations with Diagnostic X-Ray Examinations. 123

Ventriculocavoatrial Shunting in the Presence of Obliteration of the Cervical and Subclavian Veins 123
An Analysis of Follow-Up Results of 1000 Intracranial Saccular Aneurysms with Definitive Surgical Treatment 123
Atrial Myxoma; a Review of the Neurological Complications, Metastases, and Recurrences 124
Long-Term Results After Ventriculoatrial and Ventriculoperitoneal Shunting for Infantile Hydrocephalus 124
Early Diagnosis of Delayed Posttraumatic Intracerebral Hematomas 124
Arterial Supply of Carotid-Cavernous Fistulas 124
Experimental Assessment of Phenoxybenzamine in Cerebral Vasospasm 124
Numerical Grading of Clinical Neurological Status After Serious Head Injury 125
Diagnostic Brain Biopsy; a Series of 50 Cases and a Review 125
Immediate Repair of Open and Closed Skull Defects from Depressed Fractures Using Acrylic 125
Superior Sagittal Sinus Thrombosis; an Evaluation of the Changes Demonstrated on Computed Tomography 125
Sequential CT Observations of Irradiated Intracranial Germinomas 126
Total Removal of Acoustic Neurinomas 281
Smoking and Subarachnoid Haemorrhage 281
Predictive Value of Serum Lactate Dehydrogenase in Head Injury 281
Carcinoma of the Choroid Plexus; Clinical, Light Microscopic and Electron Microscopic Investigations 281
Were You Knocked Out? 281
Failure of Thiopental to Modify Global Anoxic Injury 282
Functional Consequences of the Transcallosal Removal of Intraventricular Tumours 282
Early and Late Results of Intracranial Direct Surgery of Anterior Communicating Artery Aneurysms ... 282
Management of 136 Consecutive Supratentorial Berry Aneurysms 282
The Outcome with Aggressive Treatment in Severe Head Injuries—Part I, the Significance of Intracranial Pressure Monitoring 283
The Outcome with Aggressive Treatment in Severe Head Injuries—Part II, Acute and Chronic Barbiturate Administration in the Management of Head Injury 283
Bronchogenic Carcinoma with a Brain Metastasis; a Continuing Challenge 283
Occlusive Arteriopathy and Brain Tumor 283
Prevention of Early Recurrence of Spontaneous Subarachnoid Haemorrhage By ε-Aminocaproic Acid 283
Growing Fractures of the Skull 284
Head Trauma and Subsequent Brain Tumors 450
Enhancement of Experimental Cerebral Edema After Decompressive Craniectomy; Implications for the Management of Severe Head Injuries 450
Assessment of Recovery from Serious Head Injury ... 450
Stereotactic Computer Tomography for Biopsy of Gliomas 450
Predictive Value of Cerebrospinal Fluid Polyamines in Medulloblastoma 450
Intracranial Hemorrhage in the Newborn; Current Understanding and Dilemmas 451
Prognosis of Patients with Severe Head Injury 616
Medulloblastoma—a Changing Prognosis? 616

Anterior Cervical Vertebral Body Resection and Bone-Grafting for Benign and Malignant Tumors; a Survey Under the Auspices of the Cervical Spine Research Society 452
Anterior Cervical Discectomy Without Fusion 452
Failed Lumbar Disc Surgery and Repeat Surgery Following Industrial Injuries 617
Radiological Assessment of Intramedullary Spinal Cord Lesions 617
Anterolateral Decompression for Spinal Fractures Complicated by Paraplegia 786
Rigid Spine Syndrome 787
Results of Urinary Diversion in Patients with Myelomeningocele 787

Sympathetic Nerves

Thermoregulatory Sweating in Palmar Hyperhidrosis Before and After Thoracic Sympathectomy 127
The Role of Sympathectomy in the Treatment of Arteriosclerosis 617

Peripheral Nerves

Investigation of Brachial Plexus Traction Lesions By Peripheral and Spinal Somatosensory Evoked Potentials 284
Examination of Peripheral Nerves with the Scanning Electron Microscope 285
The Surgical Treatment of the Carpal-Tunnel Syndrome Correlated with Preoperative Nerve-Conduction Studies 285
Microsurgical Repair of Peripheral Nerve Injuries in the Upper Extremity 618

Pituitary Gland and Hypothalamus

Transsphenoidal Hypophysectomy in the Treatment of Metastatic Breast and Prostate Carcinoma 127
Cushing's Disease; Selective Trans-Sphenoidal Resection of Pituitary Microadenomas 128
"Empty" Sella; Review of 76 Cases 128
Normal Variants of the Sella Turcica; Comparison of Plain Radiographs and Tomograms in 200 Cases 285
Changes in Plasma and Urinary Hormone Levels After Pituitary Chemiolysis in Management of Intractable Cancer Pain 285
Normal Sellar Variations in Frontal Tomograms 452
Transcranial Management of Pituitary Tumours with Suprasellar Extension 452
Metrizamide Cisternography in the Evaluation of Pituitary Adenomas and the Empty Sella Syndrome 453
The Value of Computed Tomography in Evaluating Patients with Prolactinomas 453
The Sella Turcica in Primary End Organ Failure ... 618
Role of the Hypothalamus in the Aging Woman 787
Surgical Treatment of Prolactin-Secreting Microadenomas 787

SURGERY OF THE INTEGUMENT AND CONNECTIVE TISSUES

Skin and Soft Tissues

Radical Operation to Stop Axillary Odor and Hyperhidrosis 129
Clinical Salvage of Three Failing Skin Flaps by Treatment with a Vasodilator Drug 129
